

## Micro Tek BL - 100 Pathology Biopsy Table Grossing Work Station

<b>Dimensions</b>		150 ~ 200cm length width × 190 × 80cm high
<b>Air suction</b>		≥ 40 cubic meters / per minute
<b>Noise</b>		≤50db
<b>Features</b>		
1	<b>All stainless steel pull pattern</b>	Constitutes high-quality steel, corrosion resistant
2	<b>Air and suction systems</b>	High-power suction devices, low noise. Quickly to remove harmful gases.
3	<b>Built-in flush device table</b>	Can quickly remove water
4	<b>Fast pressure liquid sewage discharge</b>	To completely remove water
5	<b>With pipe mill</b>	Organization of debris to avoid blocking pipeline
6	<b>Configuration disinfection lamps, lighting</b>	

7	<b>Magnetic tool holder adsorption</b>	Easy to use
8	<b>With warm water</b>	With warm water, easy winter drawn
9	<b>Rinse screen with a small sample</b>	Easy cleaning of small specimens to avoid the loss of small specimens
10	<b>With sink</b>	
11	<b>Optional large specimen digital imaging system</b>	Improve efficiency, reduce errors and data permanently archived for easy access. Gross specimen images simultaneously for reference, diagnosis is based on more fully
